## **Mt Hayachine**

My anime shrine  
comes with an  
airtight plastic lid  
capable of with-  
standing extreme  
fluctuations in  
temperature. I didn't  
have to kill any-  
thing to make it.

## **La Brea Tar Pits**

Left the cult, gave  
up a mimetic  
tradition based  
on images of  
polar regions. Re-  
placed it with  
prosaic descriptions  
of downtown Los  
Angeles & its  
surrounding  
neighborhoods  
to function as  
surrogates for his  
motherhood dreams.

## Mumbai

Apart from a brief moment in the '60s when giant ears of GE corn marched in picket lines to further enhance the status of the Nevada Desert Mermaids synchronized swimming community, the valorization of the middle-class home has always needed filtering or modification of incoming stimuli to fit the existing paradigm. There are no final answers in science.

## Windhoek

The suffering of widows has intensified in today's fragile dance music market. The FBI asserts it has played no part; at the same time saying it still cannot release 40-year-old files relating to the Nixon administration's harassment of John Lennon. The fruit trees have been neglected, the guinea fowl are starving. A two-minute siren sounds across the country. *Corazón de mi vida.* The page you are trying to access has been deleted.

## **Memphis**

If the voice of  
your custom-made  
talking Teddy Bear  
strikes you as a  
bit too cold &  
impersonal to send to  
deployed military or  
distant families, then  
perhaps a portable GPS  
navigation unit pre-  
loaded with over  
a dozen songs will be  
more to your liking,

especially when, for  
only a further \$5.95,  
you can also get  
a genuine 14<sup>th</sup> Century  
illuminated manuscript  
done by Irish monks  
that offers indispensable  
information about blues  
birthplaces, juke joints  
& the devil's crossroads  
of the Mississippi Delta.

## Óbidos

Badgers &  
English pianos are  
both national treasures  
but neither survives  
the ravages of  
an Amazon winter.

## San Diego

Comic-Con is less  
than two months  
away & NASA  
has despatched  
seven astronauts.

I have  
two spare rooms.

Most, but not all,  
legumes fix nitrogen.

## The Missouri River Floodplain

The outbound envelope  
serves as an effective  
billboard. Mystery uses  
magic tricks a lot. A  
certain condor remains  
especially in my memory.

## São Paulo

The coronal approach  
is made behind the  
hairline. Tension lines lie  
mediolateral from ear to  
ear. All the incisions  
are placed on fine cracks,  
usually running lengthwise  
along the skull. There are  
no natural landmarks.

## Silver Valley, Idaho

The world of vectors  
is a great place. North  
Pitney has built a human-  
sized maze that changes  
as you walk through  
it & can be scaled to  
any size without loss  
of resolution. Then go  
down Mac Thi Buoi  
& cross Nguyen Hue  
towards the trendy  
Ton That Thiep. A ton  
of trendy papers to  
choose from, rhythm  
instruments at the  
guaranteed lowest  
price, energy scattered  
elastically into modes. The  
sets are finite, soft errors  
are detected, but every-  
thing is oh so sassy!

## Tripoli

## Kandahar

The focus of the failing strategy in Afghanistan

has changed in recent decades from a patho-

genic underpinning of a piece of fruit—which,

put simply, is just an entity containing seeds—

to the use of a super-size cupcake as an object

for semiotic deconstruction.

## **Key Largo**

Watermelon. Jack  
grabbed a slice  
& refused to pay  
for it. Jewelry from  
the dead prostitute—  
a diamond ring, an  
ormolu bracelet set  
with small green  
stones—was found  
in his pockets.

## **The Horn of Africa**

Given the complex &  
shifting meanings  
of the term, it's pretty  
momentous to have  
three of our assets  
in the air at the same  
time. Initially, all we  
offered was rustic bread.

## **Tierra del Fuego**

The black hats draw on the testimony of French combatants in order to place the object in a logical relationship to the rest of the sentence. Mick Jagger is no exception even though he appears as an absent image—all dharmas are ultimately empty of any distinction that would separate one dharma from another. China looms large, offering free audio pronunciation of consumer-generated product reviews. There are no rail-ways. The beavers must die.

## **Lombardy**

It was the spatial frequencies at the Fourier transform plane

& the presence of defense attorneys dressed in their best

suits that finally brought him to belief in the Big Bang theory

of the creation of the universe.

## **The Taklamakan Desert**

A fairly small event in terms of plate tectonics; but the hard drive ends up stripped of all encrypted data. Tabula rasa.

## **L'Arc de Triomphe**

Storm surge, river-boat casinos, the biggest fertiliser plant in the world, why anyone would waste over a pound of premo in a giant joint are some of the nettle-some paradoxes of democratic politics.

## **Madison Square Garden**

The impact of critical  
values on the practice of  
medicine makes the voice  
sound hollow. Or maybe  
it's because dengue fever  
is running through the  
town. We can no longer  
guarantee that the moon  
will be on display on the  
day of your visit; but our  
expertise in manipulating  
distance cues allows us to  
induce an illusion that it is.

## **The Netherlands Antilles**

Once were a plethora  
of megaliths &  
great stone structures;  
but the tourists' pre-  
conceptions are  
satisfied by accounts  
of critical residues  
& the annotated  
graphic reconstructions  
that accompany them  
in the guidebooks. That,  
& the local steel bands  
which obligingly perform  
requests for 1930's  
Berlin beerhall tunes.

**Khartoum**

## **The Bosphorus**

Float fishing with a live shrimp is always a great method for catching trout. Military programs move into middle schools to fish for future soldiers. De Niro does a competent job recognizing the cult of poverty; but wouldn't you like to enter firefights with confidence, knowing that your fire team follows the Marine Corps doctrine of "Ready-Team-Fire-Assist"? You have 4 play credits left!

## **Oaxaca**

Made sense at the time, later they wept at their naivety. Read of the greater use of ethanol in motor fuels. Bought up all the corn around town. Dreamt of gushers of money. Could not comprehend vast acreage under cultivation in the U.S. Midwest. Did not understand white corn for food, yellow corn for biofuel. Did not understand genetic modification, hybrid crops, subsidies. Did not understand why no-one rushed to buy their stockpile or why those they'd bought it from did not come back. Did not realize that, since the signing of the North American Free Trade Agreement, it was much much cheaper to buy corn grown above the border.

## **Martha's Vineyard**

He went into a  
hair salon to  
get a trim, ended  
up walking out  
with a bob. Now  
he is including  
straight bar curls  
in his arms  
routine. The  
prior art has  
always shown  
that broken or  
cracked ribs  
from an Italian  
manufacturer  
will never fill  
the harbor  
beyond Edgar-  
town Lighthouse.

## Cedar Point Amusement Park

*Das Debut der Band ist  
mir nicht bekannt,* but I do  
know a grave done in the  
style of the early 1900s  
with antique looking  
popcorn machines straight  
from the boardwalks of  
Coney Island & Palisades  
Park &  
cigar store Indians.

## Catalonia

Facts are booleans  
whose value  
never changes, yet  
access to the operands  
themselves is limited  
to security-cleared  
personnel & escorted  
visitors only. It's the  
kind of backpacking  
trip that always has  
a high mortality rate.

## Ithaca

The world of carcass value  
is a bit elusive. The ongoing  
story is full of confusing  
terms, dirty tricks, payoffs,  
voter manipulation, prostitutes,  
a chicken in every pot. Save the  
playlist & share it anywhere.

## The Isthmus of Panama

A small section of  
carapace grows  
caudally as a  
tubular duct. Camino  
Real. Inside are  
two clergymen &  
caravans loaded  
with gold. The  
phytoplankton  
cannot keep pace.

## **Black Rock Desert**

The stillness of death ranges over this vast plain. I am at a crossroad in my contiguous physical map—any therapy seems only to have adverse effects. The shape of the time interval is less recognizable, imposes limitations on the raster & vector datasets already open for business just across the street from the condo development. 95% of all cats will become ecstatically attached to any thing hollow or over-hanging. Whole kernel corn right out of the can is a treat for catfish.

## **Padua**

Dante went apeshit  
late last night, cursing  
his cleaning lady &  
shaking his fists at the  
lawn guys. Network TV  
rarely offers portrayals  
of law enforcers as  
believable soldiers  
of the working class.

## **Exeter**

## **TriBeCa**

The ice-cream ad  
seems just a tad  
ungodly now that  
the medium-hold  
fine mist hairspray  
infused with apple  
& coconut has  
cleared & saddled  
White with a  
backward pawn.

## **Chokoloskie**

Outfitting a Muscle  
Milk chocolate  
shake with elaborate  
diplomas & key-  
word phrases that  
drive huge traffic

develops an online  
learning community &  
culture that has more  
depth than a frying  
pan & shows a  
different view of the  
Florida Everglades.

## Bali

The island has been shaped in the form of a styrofoam container by designer Pierre Cardin; & his frequent use of product-related images to decorate the streets make it a preferred tourist destination. It's become something of a habit for us to head over there for lunch. Plastic forks are piling up.

## Washington, D.C.

Why would he ever want a handgun when he has, on Capitol Hill, a bunch of pussies in shiny shorts offering guitar lessons customized to his needs?

**Le Havre**

## Peshawar

Many of the  
judges who took  
oath under PCO  
2007 have now  
been converted  
to blood, smoke,  
mist, gore, grunge;  
stuff of that sort.  
Unsorted though.  
No time to. Sloppy  
science is so de-  
pressing, but  
you know how  
sometimes your to-  
do list gets way  
too overcrowded.

## Cusco

Machu Picchu  
is nearby. It  
is a lever to  
motivate adaptive  
changes. History  
happens back-  
wards for a reason.

## Saxony

The crushed velvet interior of a temporal database offers turnkey solutions to current research in natural language semantics. The vertical walls of the enclosure are maintained at different temperatures; planter boxes & free translation software are both seen at their best; there's nose piercing jewelry at factory prices; &, for anyone recuperating from an alternate reality, there is, of course, Nietzsche.

## Beijing

It's that magical time  
of year when large  
quantities of spurious  
drugs trip off the  
tongue clamoring for

your gold & silver.  
An empirical analysis  
would probably  
hypothesize the halo  
effect at work, adjust it

on a real-time basis,  
posit underlying theories  
of strategic alliances &  
eventually reach the  
conclusion that the ink

acted as a reservoir &  
these Olympic Games,  
the strangest & perhaps  
the most beguiling of the  
29 held so far, did not

belong to Michael Phelps  
or Usain Bolt but to  
the man standing out-  
side the Aunt Jemima  
Pancake House &

plucking the Sanxian.

## **Sebastapol**

## **The Dickens House Museum**

Nobody likes the  
obscure, but the retro  
atmosphere of fiber  
optic systems begun  
during the cold war  
is always random &  
drops the core body  
temp wicked fast.

## Reykjavik

The rhythm of the  
liturgical year  
is mechanical man-  
ipulation, pressure  
& temperature  
increase. You cannot  
deviate from the  
plan. End of subject.  
No need to think  
about it anymore.

## Upper Ulam

Rarely are the  
needs of small  
rural school districts  
met by donations  
of mid to high-end  
street luxury sneakers  
or by playing endless  
loops of wedding videos  
in truckstops on  
the nearest highway.

## The Twin Cities

As far as branding  
& communication solutions  
are concerned, Minnesota  
is still very much part  
of the old west. Dance  
rituals are enacted  
to vary dissolution rates  
& flash points, spiritual  
themes abound, what  
cherry picking is there is  
there solely for dramatic  
effect. Come Monday, the  
entire red light district  
is being floated on barges  
down the Mississippi  
preparatory to being  
shipped to Singapore.

## Mombasa

## Hampstead Heath

Knitting is an unexpected passion, but cross-temporal validation of the model indicates too many activities take place in the dark.

## The Pompidou Center

*Fraternité*

Three of the five corners of Praxiteles' head are tastefully filled with imitation plants.

*Égalité*

The fourth & fifth straddle a white baby grand piano.

*Liberace*

## **Waitakere City**

A common misconception about most neoclassical growth models is that non-clinically depressed patients are sourced for roadfill for city streets in much the same way as starter cultures are used in the production of industrial fermented food. True, they are homogeneous in texture & color, & bland in taste, especially during those times when they're interacting with the external world, but what does personal growth have to do with the meaning of life?

**Kobe**

## The Lower Burdekin

Burning sugar-  
cane before  
harvesting, a

method adapted  
from an Estonian  
lace knitting book,

is a subgenre  
of exploitation film  
that began in

the late 1960s  
& continues to  
the present day.

## Bangkok

The causal variable, X,  
is supposedly  
either a small Gogo bar lost  
in the middle of soi Cowboy  
or the hottest source  
of house music wav & mp3  
downloads on the net. It's  
a false dichotomy, a product  
of the "language purification  
movement" that hunted  
Japanese loanwords once  
the occupation of Korea  
was over, & disregards the  
implications of gender on  
adaptive phenotypic plasticity  
& sperm tail length.

## **Chicago**

At first blush, even  
though further  
investigations are  
necessary to fully  
understand the  
nanomorphology,

riding the L  
is like having  
a cluster of  
coriander  
in the brain.

## **Oodnadatta**

It's batshit crazy how  
the spiral instability  
of song chart memes  
can interrupt the  
configuration of an  
early morning walk  
through the soda  
kiosks & borecas stores  
of the Painted Desert.

## **Port Harcourt**

## Milos

Summer vacation plans  
are set in place, we're  
back in the white painted  
suitcase. Monastic life  
tends never to carbon up—  
sacks of fragrant spice  
take care of that by  
keeping even low level  
sex at bay. Now the  
signs of signing are be-  
ginning to thaw. All that  
remains is to finally swim  
away & board the boat.
