Temptation in Whispers was written at a time when I was deeply committed to the notion of “abstract poetry”. This was neither simply “sound poetry” nor “concrete poetry”. I was interested in working with limited vocabularies and permutations. In those days I was engaged in finding a way of writing in key with innovation going on in other purlieus of art – Philip Glass’s musicians had stayed in my studio on their first visit to London, and I had conducted the first British radio interview with John Ashbery. Several times I visited Clark Coolidge in New Lebanon and often hosted readings by poets associated with the New York School. My work was contemptuously dismissed by the British poetry establishment, and this manuscript proved impossible to publish.

Our reply has always. Nobody should dare be. Been to play dirty. This beside the sheet of the. The thing started itself. That ours have had. Not the fiddly bits. Along the way this and that. To make up for. Be anything but that. What has been imposed. And if under the surface of.

Reduce handicap. Right.

Like in surfaces under here and there. Should someone dare that. By us on yours. Over the quiet here less than ever. You hate it how. You could do how. Ever and out for nothing or less. You're ice you know. Should beings that liberated. And along the floats of the nothing.

Damn overcoat.

Than ever when along the hush of floats. Where ever the less in hush when quietly. Me on the surface. Where is when just as simple as ever. Just like as and the as when gently.

Continue to bestow upon. Under if reflects when as over the ever. The this of beside sheet reflects the under. Both of us imprison. That along and beside the this this way. Of along and the surface if the under. Themselves the excuses of. There like the surface and in here surfaces. Ever in here over than the less quiet. The essence of that. Less and less or out in nothing for. The nothing and less of along floats the. Slaves perhaps should learn. Of than the hush ever floats the when. When quietly where when the hush in less. A nightmare you are. Ever is quietly as where just simple as. Gently like as is when and as the. To dirty yourself you. Ever as under as over if as reflects.

Leaving is like myself. Ever the under the sheet this beside of over. Beside the way that this along the sheet and. Under this way of that the and if surface. Worse to rescind than. Surfaces surface there and here like under in and. Quiet ever less over there the surfaces than here. For less than nothing and ever out or quiet. Horrid things the most. The nothing quiet the floats and along of ever. When of along the floats than the ever hush. Less floats quietly when in where the hush when. You what we stipulated. The hush as ever simple is just as quietly. As the gently as simple as like and when. Reflects the gently as ever as under if over.

Else ever could manage. Feigning dislike of them. More deeply than anyone.

Of the gently ever beside as the under this sheet. And the way the sheet beside that along this gently. And the surface under if along that of and the. And the surfaces and in there if like along here. Than surfaces and quiet in the ever and over less. Or less for out less than in quiet and nothing. Of less the nothing along less the quiet and floats. Hush floats along when ever of less than the quiet. When less quiet the hush quietly when where in ever. As quietly as quiet just when ever is ever simple. As when the simple and gently is just like as. And over reflects as if ever the under as is.

Shouldn't together and why. But you we don't.

The sheet of this reflects the under as the ever beside. Beside this and under this along way that reflects the sheet. The under surface and the under of that sheet if this. Under here the surface and this like surfaces there in under. Less than over the quiet ever the surfaces here and there. Here nothing or less and ever over for less than out. Nothing floats less than of here and the less the along. The less the hush floats than when and of ever along. Ever in when where the hush floats less than quietly the. When in where simple as less is as ever just quietly. As simple is when like the gently where and when ever. As over the under reflects ever if when is as simple.

If beside as sheet ever the over of reflects the under this. You and me and you. This the beside this the that sheet and of way the along. Me you and you and. Along if the the way of this surface and under that and. You you and me and. And in if here under there the and surface surfaces of like. You and you and me. Like the in less surfaces ever here than and quiet there over. Me and you you and. Over out the nothing quiet less less or than for ever and. Me and you and you. And along out floats for the nothing of or the less and. And you you and me. And ever along the the of floats hush of when the than. And me and you you. Than the ever in when quietly the when hush less of where. You me and you and. Where just the simple less ever in as when as quietly is.

Cooperative her taste
and his valour.
She supplies the roses
instead of him.
Her marzipan provisions.
Him and his dirt.

Sit him down to table.
Do it with him.
You me and him tuning up
him and his.
He takes the cake.
He does eat.

Smell the tamarisk in his hand.
While in touch with her
and his provisions
hand her up
your sapling to camouflage his mouth.
Never never let her gun.

Wash your hands before her feeling
Me and her willingness.
Stuff her shirt.
Never salute her flag in camouflage.
Under her cape
and over you was she not in uniform?

Her doing this where we were then but what are we now that we wouldn't do it either. Plunge. Either her doing this where we were then but what are we now that we wouldn't do. Surface waving. Doing this where we were then but what are we now that we wouldn't do either. The cold overcoat. Either doing this where we were then but what are we now that we wouldn't. As a danker mistake. This where we were then but what are we now that we wouldn't either. Dark tact whispers the aqueduct. Either this where we were then but what are we now that we. The potato fires the mentality dankest. Where we were then but what are we now that we either. Temptation glimmers deepest in the quiet sheet. Either where we were then but what are we now that. Carrying the envelope contained deeply burns the handkerchief. We were then but what are we now that either. The plunge dazzles the cataracts as they tumble down. Either we were then but what are we now. Tamarisk blossom as a darker debate generates the darkest splash. Were then but what are we now either. The admirable splash around the surface and the receptive dank marzipan. Either were then but what are we. Dully the twenty-two weakens Manchester as a duller marigold dazzles oblations dullest. Then but what are we either. As the samovar steams a deeper handkerchief excites damp fountains of heavenly delight. Either but what are. The temptation reflects in whispers around the splash as a dimmer panache of waving. What are we either. The ambidextrous cataracts as they tumble deep down the samovar warms revelations deeply unfolding regret. Either what are. Around charity received splash the dull latch and latch the admirable as a damper handicap dries. Are either. Dampest mentality around the potato coldly fatigues debate as a colder handkerchief excites the dim fountains. Either. As a profounder camouflage the samovar shimmers most profound steams and the tamarisk strengthens closest the profound plunge blossom.

He exclaimed. You called as you sent the ring skimming across the space between you. A voice was heard. She laughed as she leapt in the air one finger stretched to intercept it. Nodding I shifted my position so as to widen the opening. Who spoke. I began as the ring landed. You pointed out. He said arching himself as it sped away. Smiling he pulled them down while she seemed to doze. She groaned. We explained watching the ring sail towards you. He murmured. I shouted diving for it. Giggling they straddled me before I had time to recover my senses. You sighed. He grunted staring morosely at the ring. What was said. You asked wondering who to throw it to next. Whispering the thing would tease us in a mood of playful reproach. He mouthed. You said signalling for the ring to be sent your way. They asked. I exclaimed as it evaded my fingers. Shouting she could be heard from the hills above. Who's crying. He enquired picking up the ring. You don't say. She retorted as he flipped it towards her. Calling to remind them that dinner was about to be served. He gasped. You remembered as the ring floated down to her. We guessed. He yelled as it came back to him. Agreeing I should pass my hand into the opening. I thought so. You exclaimed as the ring sailed above your head. Who said. They wondered as she ran to find it. Someone was saying while we pulled them into the shade. You sobbed. I suggested catching the ring on my finger. Who told you. He demanded running for it as it spun beyond his reach. And laughing they jumped into the somewhat overcrowded situation the pool inspired. Why ask. She sniffed waiting for him to return the ring. You whispered. I remarked as it landed on her finger. Insisting on it until she realised how intensely I was staring back.

You remembered as the ring floated down to her. Trying to be. We guessed. He yelled as it came back to him. All we were. Agreeing that I should pass my hand into the opening. I thought so. Kiss us for. You exclaimed as the ring sailed above your head. As we asked for. Who said. They wondered as she ran to find it. Let us explain that. He demanded running for it as it spun beyond his reach. And laughing they jumped into the somewhat overcrowded situation the pool inspired. They're back both of them. Why ask. She sniffed waiting for him to return the ring. Knowing they never do another. You whispered. I remarked as it landed on her finger. For how could we promise. Insisting on it until she realised how intensely I was staring back. Carry her out with whose. They asked. You said signalling for the ring to be sent your way. To be the rest and better. He mouthed. I exclaimed as it evaded my fingers. And you left saying you were me. Shouting she could be heard from the hills above. You sighed. Him with the hand up pleading. He grunted staring morosely at the ring. What was said. Stoppit stoppit as we were before. You asked wondering who to throw it to next. Whispering the thing would tease us in a mood of playful reproach. When they wrench her like that. He murmured. We explained watching the ring sail towards you, Are you but where you were. Rings your waving quietly needs.

As unfolding sounding.

Marigold. Is it. As the surface

floats under that hush.

As if marigold surfaces surface

as simply over the marigold.

Marigold over marigold marigold.

Under where

the marigold hush. Marigold

rings quietly rounding.

Hush. Marigold, Is the hush raining?

Hush. Quietly where rings, The rings we're waving. As where. Under the hush that hush. Is that hush we're rounding over. Beside this. Surface raining floats the hush under. The tuning of the rings. As over the. If one reflects under a like hush. Just unfolding beside running under sounding along. Where the hush surfaces is as simple. As as. Is it. Under a simple simply reflects and gently the sheet hush. Your sapling needs less rings. Hush less rings. Under simple and gently hush. Rings your waving sapling quietly needs. Raining. As unfolding running sounding. Is it. As the surface floats under that hush. The hush as if surfaces surface is as simple over the. Over where. Under where the hush. Where rings quietly as we're rounding. Hush. Is the hush raining. Under along a like this. Over along under beside. Sounding if one reflects rings. Just as. Of the simple the rings. A sheet reflects the hush simply. When beside the hush this is like the tuning ever. Quietly raining rings over the surface. Surfaces that hush. As if. Under reflects the hush. Under the hush. We're waving the sheet. Along this. Hush under the rings the surface. Simple sounding rings. Hush ever quietly like where the hush is rings. Under the surface the sheet reflects surfaces when the hush is like ever.
